offshore apartments

Borkum

Living and working at Borkum harbour

The apartment house “haus no. 17” on the island of Borkum combines comfortable living and modern working in direct proximity to the harbour.

Excellent infrastructure and short distances make the location the ideal service base for the logistic supply of offshore wind farms in the North Sea.

14 convenient apartments as well as four single rooms ensure the perfect balance to a challenging daily work routine.

Opportunities for effective working, recreation and leisure activities ensure a healthy work-life balance for your employees.

Our comprehensive port and logistics solutions form an all-inclusive package for your project.

Convince yourself! Request an individual quotation or arrange a site visit by e-mail to borkum@offshoreservice.de ✉

Comfort and service on three floors for a healthy work-life balance

The bright and modernly furnished apartments with private bathroom and kitchen ensure comfortable living and plenty of space to work efficiently in a relaxed atmosphere. Offices, conference rooms and a laundry room complete the whole concept.

Your personal think tank

Make your stay as efficient as possible and use our premises as your personal think tank. Turn your apartment into your private home office. Due to our spacious office units and free wifi, contemporary meetings are possible at any time during your stay.

Customised service

Whether for a short stay or long-term rental, we will adapt to your needs. Our team is at your service and will organise precisely the additional services your team needs. Contact us!

Hygienic measures

We have adapted our hygienic measures to the current situation. We assign competent personnel to frequently clean the apartment house. Large windows in each apartment ensure fresh air and a pleasant indoor climate for you to feel comfortable at any time.

All-inclusive service for your project

Benefit from our comprehensive services and tie up your individual service package.
